Built for Overseas Project Delivery

A clear commercial interface between buyers, projects and manufacturing.

GEELYE

GEELYE is the overseas-facing brand of BYEAST INTERNATIONAL GROUP CO.,LTD, focused on modular sleeping pods for hotels, hostels, staff accommodation and selected rest-space projects. We support buyers from initial product selection through configuration, quotation, delivery coordination and after-sales follow-up.

Manufacturing & Technical Coordination

Products are manufactured through an established capsule-bed supply partnership. Final specifications, materials, electrical configuration and applicable evidence must be confirmed by model and destination before order approval.

OUR MARKET FOCUS

- Independent hotels and hostels
- Micro-hotel and room-conversion projects
- Staff and duty-rest accommodation
- Hospitality contractors and distributors
- Selected airport and commercial rest projects

What We Deliver

Product supply is only one part of a successful overseas project.

01

Product Selection

Match pod structure, orientation, size and configuration to the intended operating scenario.

02

Layout Support

Review room plans and prepare an initial pod arrangement, access and installation discussion.

03

Configuration Control

Confirm materials, color, electrical standard, accessories, packaging and spare parts by model.

04

Delivery Coordination

Support packing review, shipping documents, installation guidance and post-delivery follow-up.

PURPOSE

Delivery reference

Quality, Compliance & Delivery Discipline

Claims and documents must be verified against the ordered model and destination.

MODEL CONTROL

Dimensions, weight, configuration and accessories are confirmed in the approved order specification.

INSTALLATION PACKAGE

Assembly drawings, guidance videos, packing lists and acceptance checks support project delivery.

MATERIAL EVIDENCE

Available material, fire-performance and environmental reports are mapped to the applicable component or model.

SPARE PARTS

Critical replaceable components can be included according to order size and service requirements.

ELECTRICAL CONFIGURATION

Voltage, plug, lighting, USB, fan and control components are selected for the destination market.

LOCAL APPROVAL

Building, fire, ventilation and operating approvals remain subject to local project professionals and authorities.

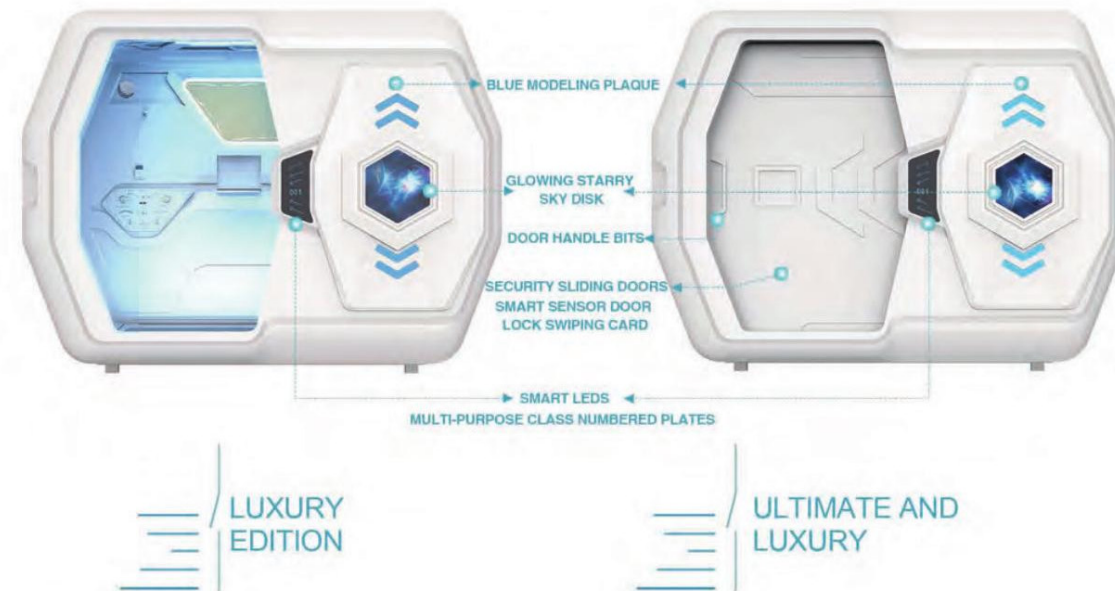

Product Selection Guide

Final availability and specification are subject to model confirmation.

PRODUCT FAMILY	TYPICAL APPLICATION	PROJECT VALUE
Horizontal Pods	Hotels, hostels, staff rest	Familiar layout; broad model range
Vertical Pods	Compact rooms and flexible layouts	Alternative access orientation
Wood-Finish Pods	Hostels and design-led interiors	Warmer hospitality appearance
Single / Double Modules	Room conversions and project combinations	Flexible unit planning
Doors, Lighting & Accessories	Integrated project packages	Consistent visual and operating system

PROJECT STARTING POINT

Send country, application, required quantity, room dimensions, target opening date and preferred configuration.
